**Partner with a company you can rely on** for all of your HVACR maintenance and repair needs.

## WHO WE ARE

The maintenance services we provide are specifically designed to extend the life cycle of your equipment, saving you money in the long run. When you experience equipment breakdowns, your dedicated Race account technician will promptly perform the necessary repairs on site following your approval. Whatever your HVACR needs may be, Race Mechanical Systems Inc. is committed to providing you with the services you need to keep your operation running smoothly.

Race Mechanical Systems Inc. is a Canadian company headquartered in Southern Ontario, providing full service solutions for all commercial heating, ventilation, air conditioning and refrigeration systems. With satellite offices and in-house skilled technicians throughout Canada, we have the capacity to serve clients whether they require daily, monthly, or yearly visits from one of our skilled HVACR technicians.

Race Mechanical Systems Inc. was established in 1983 and has since grown to be a well known name in the industry, holding large-scale corporate accounts across Canada. Our quality of service coupled with our friendly customized approach is what has allowed us to keep the same clients we have had since day one.

## OUR TEAM & OWNER

Given our strong company morale and long term employment focus, Race Mechanical Systems Inc. strongly believes in building expert technicians from the ground up. We accept technicians on an apprenticeship basis and then educate, qualify, and certify them as HVACR professionals once they have graduated from our in-house specialty equipment training and rigorous industry programs. Since our inception in 1983, we have built a strong team of management professionals who possess strong organizational, people-oriented, and leadership skills. Each of our dedicated managers has been carefully appointed, and has shown enormous commitment during their long tenure at Race.

Race Mechanical Systems Inc. is run by the same person who established the company in 1983. Our owner and CEO, Terrence W. Timmins, has an undeniable passion for the HVAC industry and enjoys the challenge of providing exceptional maintenance and repair services that are unmatched in the marketplace.

### UNDERSTANDING WHERE WE FIT IN

Proper maintenance of your heating, ventilating, cooling and refrigeration systems ensures that your business operations continue running smoothly and that your employees and customers are comfortable at all times. At Race Mechanical Systems Inc., we understand that the better your equipment runs, the more you can concentrate your efforts in other areas of your business that demand your attention on a daily basis.

### QUALITY AND RELIABILITY

With our strong commitment to quality, our friendly customer service, and our fast response time to your service needs, Race Mechanical Systems Inc. is an HVACR maintenance and repair company you can count on. We use advanced tracking systems, dispatch software and organizational computer programs that help us provide you with the type of service you need, when you need it.

## COMPETITIVE RATES

We understand your need to save on costs wherever you can. We will ensure that your equipment is tended to on a timely basis, and is given the maintenance and repairs it needs to stay in excellent condition. We also offer extended fixed pricing contracts with terms of three to five years for all national accounts. This allows for easy and accurate forecasting of expenses related to your HVACR budgets.
